With the release of version 14.97, for the **first time administrators can quickly and effortlessly share the End-User and OEM Black Ice Printer Drivers between 64-bit and 32-bit operating systems.**

By using the latest Printer Driver, customers are no longer limited to sharing the drivers between certain operating systems.

Additionally, per many customers' requests, the drawing on opaque background for text records has been improved.

The complete list of improvements in the latest Printer Driver includes the following:

- Ability for End-User printer drivers to be shared between 32-bit and 64-bit operating systems
- Added Bates Number field to Custom File Naming
- Updated PDF DLLs to version 2.9.0.686
- Drawing opaque background for some text records
- Updated manuals
